**State Notes:**

Case Management is included in unallocated figures because they cannot be broken out at this time. Prevention Support activities for adults partial only and represent 1 grant recorded only. South Florida State Hospital and the Violent Sexual Predator Programs are private and are not included as state owned and operated but SMHA controlled. The Department of Children and Families (DCF), Mental Health Program Office does not have control over Medicaid expenditures for behavioral healthcare services in Florida. Although the office must have a contract in place for a provider to bill for community mental health services, there is no account of those funds. Because the DCF Mental Health Program office does not control community based program provider budgets, Florida cannot determine the actual funds expended for services. The figures here reflect some funds but most agencies receive other funding.

State Mental Health Agency Controlled Expenditures and Revenues, Tables 25, 26, and 27.

**State Notes:**

Case Management is included in unallocated figures because they cannot be broken out at this time. Prevention Support activities for adults partial only and represent 1 grant recorded only. South Florida State Hospital and the Violent Sexual Predator Programs are private and are not included as state owned and operated but SMHA controlled. The Department of Children and Families (DCF), Mental Health Program Office does not have control over Medicaid expenditures for behavioral healthcare services in Florida. Although the office must have a contract in place for a provider to bill for community mental health services, there is no account of those funds. Because the DCF Mental Health Program office does not control community based program provider budgets, Florida cannot determine the actual funds expended for services. The figures here reflect some funds but most agencies receive other funding.
